

Hellenic Naval Amateur Radio Club - HNARC

“HNARC 2022”

The club enters its second year and the “HNARC 2022” award has been created. Until the end of 2022, HNARC members will be heard on the bands and a downloadable award can be earned by contacting member stations.

There will be 3 awards available, Gold, Silver and Bronze. Each QSO counts for one (1) point. Five (5) points are required for the Bronze award, ten (10) points for the Silver award and twenty (20) points for the Gold award. Additional points can be earned with QSOs on other modes and bands. QSOs in the same band/mode are valid for additional points **on different days**.

If your QSO does not appear in the log, please send us an email not earlier than a week after the QSO has been made.

The HNARC 2022 Award has been created by SV1EJD.

We look forward to taking part in the 2022 International Naval Contest and other events.
