

The award is available to all the stations that made one valid contact with the II3IARU special event callsign on any band or mode from April 28th to May 18th, 2025.

The II3IARU call commemorates the IARU (International Amateur Radio Union) centennial.

The International Amateur Radio Union was established in Paris in 1925, where delegates coming from all over the world gathered to create the first ever international amateur radio organisation with the main goal of tying the radio operators and representing them in the International Congresses.
