

YO DX Club on its 60th anniversary

This year YO DX Club celebrates its 60th anniversary. On this occasion, the anniversary diploma "YO DX Club - 60 years" is launched

Between August 1-31, 2024, member stations of the YO DX Club can use the special code **YQ60YODXC**.

The diploma will be issued in 3 classes, Bronze, Silver and Gold.

To obtain them, QSOs with station **YQ60YODXC** will have to be performed. A connection with this station gives **10** points. Connections can be repeated in the same band, but in different modes (PH, CW and/or DG - all digital modes are included in DG) or in different bands. Doubling connections on different days, in the same lane and mode, does not bring additional points.

A minimum of **60** points is required for the **Bronze** class, a minimum of **120** points for the **Silver** class, and a minimum of **180** points for the **Gold** class.

The diploma can also be requested by working methods (PH, CW or DG).

The diploma will also be awarded to the stations that will activate the special code as follows:

Bronze minimum **100** QSO, **Silver** minimum **300** QSO, and for **Gold** minimum **500** QSO.
